On air

Saturday from 02.30 pm to 03.30 pm
Hosted by Federico Taddia and
Matteo Bussola

The guests are rappers, youtubers, gamers, environmental advocates and social experts who tell their point of view and showing that they have skills and ideas, even if they face the world and difficulties with a different look than their parents.

RADIO UP&DOWN

On air

Saturday from 08.00pm to 09.00pm

Hosted by Paolo Ruffini

with Federico Parlanti and the participation
of Lamberto Giannini

A format born from a theatrical project, a pair of hosts who define themselves as "unlikely" and who explore the universe of misunderstanding, where every mistake becomes an opportunity to laugh, reflect, and break conventional patterns. Federico, in fact, is the first Italian radio host with Down syndrome, and with pride and humor, he embraces his extra chromosome. Between colorful off-key notes and philosophical digressions, the hosts explore a wide range of topics, from current events to music, from recent history to cinema. Because Radio Up&Down is an invitation to get carried away into a world where every idea can be commented on, explored, or turned upside down. Because, after all, it's not the mistake that matters, but how you transform it.

Agriculture, the productive heart of Italy's agri-food sector, is transitioning toward the future. Climate challenges, profitability, social sustainability, environmental impact, animal welfare, and generational turnover are the main playing fields. The goal is to win all the challenges without betraying the quality and excellence of our beloved food and without losing sight of the fundamentals of food safety. A journey that can only reach its destination with the help of innovation and research. Between hoes and drones, Madre Terra will follow this journey every Sunday morning by listening to farmers, scientists, and experts. Because agriculture...is for everyone

TIK TOKERS

On air

Sunday from 08.00pm to 09.00pm

Hosted by Marta Cagnola

Every week on Radio24, a successful creator. Makeup, fitness, travel, sports, comedy, in-depth analysis: these are just some of the fields in which the new stars of the internet and social media are making their mark. With millions of followers and "likes," they are role models not only for young people, but for an increasingly broad audience that "scrolls" through their "content." But how did they build their record-breaking profiles? How did they find their "voice"? And how do they manage to communicate effectively with short, fast-paced videos?

The new program comes from the initiative celebrating 25 years of Radio 24, "La trasmissione che non c'è," which involved listeners in proposing a new authorial idea

How many times in a conversation, partly because we don't know what to say and partly to cut things short, do we use clichés? There isn't a single person in his life who hasn't used these linguistic shortcuts. This year the clichés program opens its doors to the public: the "extended editorial team" of OFF TOPIC on Telegram is born, a real meeting room between hosts and listeners where they can share ideas, ideas and opinions which will then be discussed in the program. 2024

On air and podcast

Sunday from 2.00 pm to 3 pm

Hosted by Enrico Pagliarini

Technology is everywhere: in our office and in the kitchen, in the car and at school. It changes the way we travel and work, listen to music, and make phone calls. We use it to play, to have fun, and to learn. It is technology that determines the key variables on which life depends: energy supplies, healthcare, and food cultivation. The speed at which it develops is exponential, both unsettling and fascinating. 2024 expands, broadening its horizons and yours, to talk about the present and look to the future. There are three main areas of focus: new consumer hi-tech products, the world of video games, and the technological innovations that are changing the world.
