PUBLISHING INITIATIVES 2025

24 ORE EVENTI WHO WE ARE

24 ORE Eventi is the Company of the **24 ORE Group** that designs and creates events to meet the needs of customers and disseminate the information assets of Il Sole 24 ORE.

The various initiatives originate from constant internal discussions with the different elements of the Group, such as Editorial and Marketing, as well as cues and stimuli from the market.

There are **conventions** and **major events** moderated by **the** 24 ORE Group journalists but also tailor-made projects designed and created to **meet the needs** of different targets, both BTB and BTC.

The 24 ORE Eventi offer suggests **different format types**: from full digital initiatives (Interactive 24 and Live Streaming 24) to in-person events (Live Event), as well as hybrid solutions (Live & Digital) where the physicality of the traditional event is combined with the virtual nature of the online event.

In a rapidly changing and highly unstable world, strategic political relations become of paramount importance to maintain global order and peace. An insecurity on multiple fronts is highlighted, notably in **political-strategic** and **economic-financial** areas.

This strong perceived insecurity at all levels increases the generalised need for protection. A close look must be paid to countries such as **China, India** and **Africa**.

What are the opportunities and hidden potential of the African continent? What are the main transformations taking place? To what extent are Italian SMEs ready to compete in international markets at this stage?

Institutions, academics and industry experts will address these among many other topics.

LOGISTICS DAY

25 JUNE 2025

MILAN

LIVE AND DIGITAL

Italian logistics is a constantly growing and transforming sector whose importance for the country became apparent during the Covid-19 pandemic and the conflicts in Ukraine and the Middle East. The event aims to examine the trends and challenges that the sector is currently facing and will face in the future within a geopolitical context that combines ongoing conflicts with the new customs policy introduced by Donald Trump's USA. Particular attention will be paid to **technological innovation, Artificial Intelligence** above all, as a support for companies to counter rising costs and optimise processes, compliance with **ESG parameters** now required by law, **staff shortages** and **workforce management and training**. Finally, an in-depth examination of the various **regulatory frameworks governing the sector** will be undertaken, starting with the Logistics Contract.

DIGITAL & GREEN TRANSITION

3 DECEMBER 2025

MILAN

• LIVE AND DIGITAL

TARGET

ENTERPRISES, INDUSTRY,
PUBLIC ADMINISTRATION,
PROFESSIONALS

In order to remain competitive in international markets in the age of AI, our companies must tread the path of **innovation** on the dual track of the **Digital & Green Transition**.

A process that requires considerable investment and that SMEs are not always able to support with internal resources.

Hence, the recourse to **credit institutions** and **venture capital**, but fundamental for Italian companies remains public support, exemplified in 2024 by the **Transition 5.0 Plan**.

What will be the new incentives and concessions decided by the government in 2025? We will illustrate them in this event by explaining their advantages but also the procedures for accessing them.
