IlSole24OreTV

A next-generation platform for linear and non-linear fruition

With IlSole24OreTV, the Gruppo Il Sole 24 ORE becomes the first Italian media hub with a comprehensive and integrated news platform, taking a strategic step toward the future of news and strengthening its leading role.

A **cross-cutting news channel featuring** a rich and diverse programming schedule that satisfies the general public's need for information and intelligent entertainment, while maintaining the principles of authoritativeness and reliability that have always distinguished the Gruppo Il Sole 24 Ore. IlSole24OreTV is a benchmark for in-depth news, thanks to the synergistic integration **of high-quality content** produced by the Group's various divisions.

The platform is **designed with a next-generation architecture** that allows for access across all major channels: **Smart TV, mobile app, web, and, of course, linear viewing on digital terrestrial TV, channel 246.**

From November 2025, IlSole24OreTV will also be available **on TCL and in the News section of Samsung TV Plus**, a further step in the **Advanced TV footprint**, making content accessible live and on demand in a **cross-media and multi-device manner**.

An evolving channel

IlSole24OreTV broadcasts content dedicated to economic and financial news and more.

The schedule **offers** everything from **Radio 24's most popular programs** to the extensive daily in-depth coverage of Il Sole 24 Ore and the Radiocor news agency, along with the Group's exclusive professional content segments, such as "**L'Esperto Risponde**" contributions from **24 ORE Cultura** on major cultural events, and **24 ORE Eventi**, with its over 120 events per year, starting with the Trento Economics Festival.

An authoritative narrative that gives voice to the complexity of the present: news, current affairs, sports, culture, and society, offering space for ideas and debate, also featuring contributions from Gruppo Il Sole 24 ORE journalists.

The offering is further enriched by **content broadcast in collaboration with** top-tier partners: **ilmeteo.it** for both graphic weather forecasts and video weather updates. Finally, the collaboration with **Tuttomercatoweb** complements the sports information offering.

An expanding ecosystem

Since autumn, the schedule has been further enriched with numerous contributions, such as the **special programs by 24 ORE Eventi and HTSI**, **live broadcasts from ilsole24ore.com**, **special projects**, and the **sections dedicated to the Group's exclusive professional content**, featuring brands of extraordinary renown that provide in-depth information and updates on key **fiscal, regulatory, and tax topics**.

From December 2025, in collaboration with Cetilar Racing – a leading company in endurance racing – the 2025-2026 Asian Le Mans Series races will be broadcast, the first production of an international event, a significant new step in IlSole24OreTV's strategy.

In addition, new projects and future collaborations with **new partners** are already being developed, which will further evolve the platform, **seamlessly integrating it into the Gruppo Il Sole 24 ORE ecosystem** and offering an ever more **complete and distinctive experience**.

The Museo delle Culture in Milan was created from the recovery of an industrial archaeological site, thanks to the intuition of the English designer **David Chipperfield**.

International exhibitions, educational activities, special events, auditorium performances and themed stores can all be found at the MUDEC, the museum of cultures that 24 ORE Cultura has managed together with the City of Milan since 2015.

The **MUDEC** is not only one of the most important museums in the city of Milan, but also acts as a **cultural centre for exhibitions and interaction** with the activities and events in the city itself.

PUBLISHING & RETAIL

24 ORE Cultura was founded as a publishing house in 1989. The editorial brand publishes illustrated **books on art, fashion, design, architecture and photography**. It distributes its editions in Italy through bookstores, museum bookshops and online, also producing commissioned publishing products.

24 ORE Cultura manages bookshops at exhibitions and permanent stores, such as the Design Store at the MUDEC and, from September 2022, the TAM Shop, a store located in the Teatro degli Arcimboldi in Milan.

In 2021 it relaunched its proprietary brand; **Libri Scheiwiller**, a leader in art non-fiction, and has created a line of 'author's' objects with the Art&Design24 brand.

24 ORE Cultura for partners

24 ORE Cultura offers its **Partners and Sponsors** the opportunity to convey themselves in an exclusive cultural context and to communicate through the valuable contents of **tailor-made projects, inside museums or cultural spaces, or within urban space**, with great prestige and visibility, to benefit from **the integration of different business areas** and the **multi-channel nature** of its services.

Exhibitions and corporate events (with the option of customising dedicated spaces within the MUDEC), sponsored and tailor-made **books** for the partner's needs, and in-person and digital **educational projects** complete the commercial offering of 24 ORE Cultura.
